ARMY ROTC - BULLDOG BATTALION

WHAT IS ROTC

The Reserve Officers' Training Corps (ROTC) is a college elective offered at more than 1,700 colleges and universities across the United States that prepares young adults to become officers in the U.S. Military.

In exchange for a paid college education and a guaranteed post-college career, participants, or cadets, commit to serve in the Army, Army National Guard, or Army Reserve.

The instruction you receive in the Army ROTC will center around the Army's Leadership Development Program with a specific focus on basic soldier skills and small-unit tactics. This will take place both in the classroom and in a Lab, but you will have a normal daily schedule like all other college students. You can be a member of a fraternity, sorority, attend football games, and anything else you desire.

Best of all, on graduation, those who complete ROTC will receive a bachelor's degree and commission straight out of college as a second lieutenant.

Officer vs Enlisted

U.S. ARMY RANKS

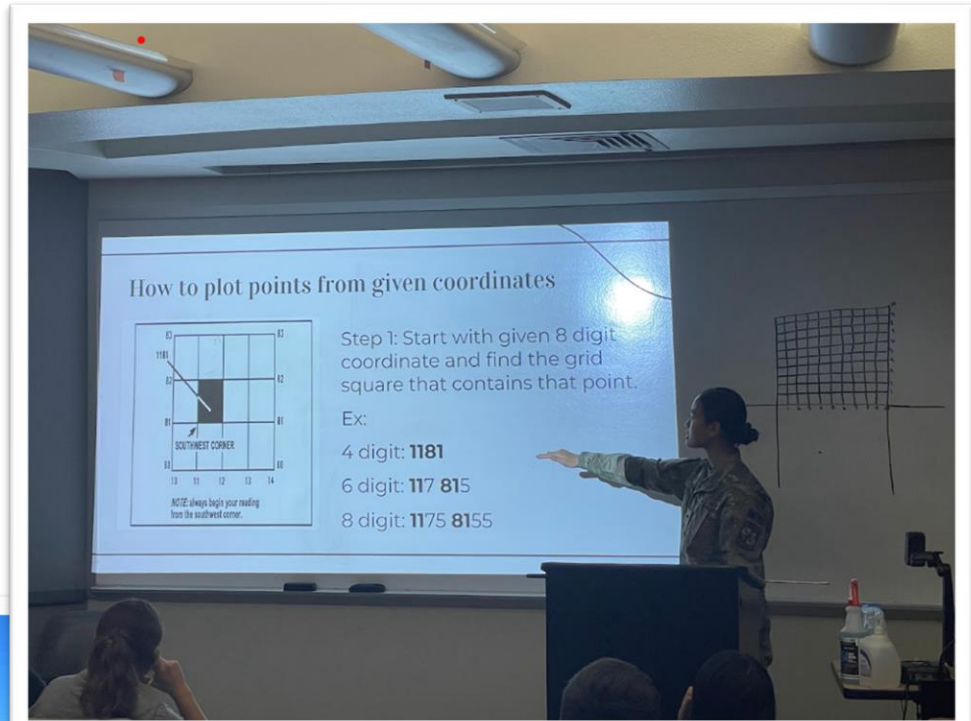

The Army profession is a unique vocation of experts who are entrusted to defend the Constitution and the rights and interests of the American people. More than an indication of pay grade, Army ranks provide a system of leadership that indicates a Soldier's level of expertise, responsibility and authority inside that profession. Regardless of rank, every Soldier has a significant role in the total Army mission.

Enlisted service members are responsible for completing military missions and carrying out orders.

Commissioned Officers are the managers, problem solvers, key influencers and planners who lead enlisted Soldiers in all situations. They plan missions, give orders and assign Soldiers tasks.

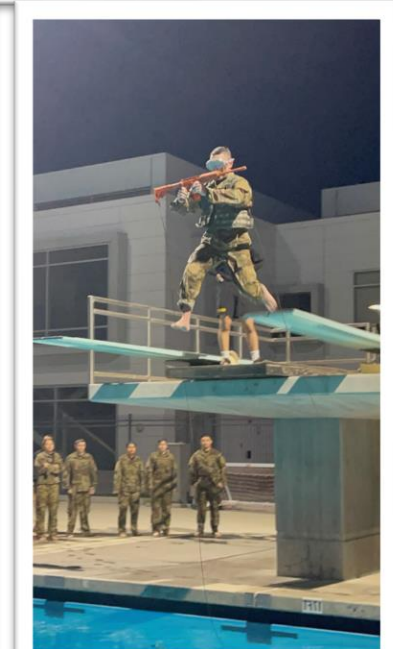

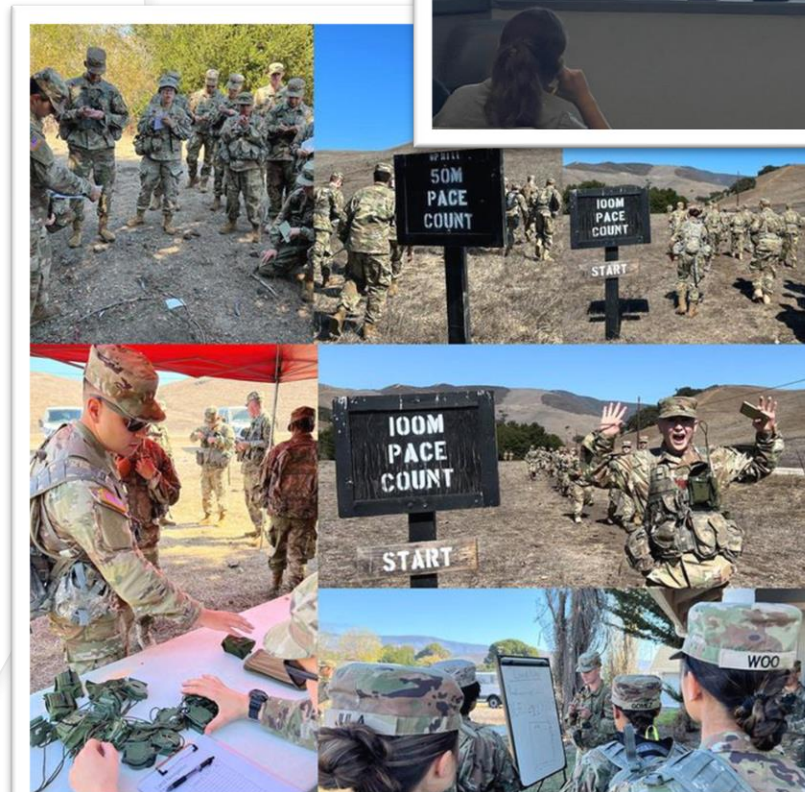

Typical courses - include military operations and tactics, weapons, code of conduct, psychology and human behavior, national security, military justice, intelligence and electronic warfare.

What Will I Learn in ROTC?

Outside of class, labs and drills cover skills such as patrolling missions, marksmanship, assembling and cleaning weapons, navigational tools and tactics, survival, first aid, public speaking, and physical abilities such as swimming, marching, ropes courses and paintball exercises.

Military Science (MS) Class Overview

Military Science (MS) classes are held once a week for 1-2 hours each session depending on MS level. Military Cadre members with years of operational experience in the Army are the primary instructors for the course. The MS classes are similar to other college classes in that there is a syllabus, quizzes, tests, homework assignments, and grades, but the content is focused on leadership development, military skills, time management, operational planning, and other areas essential for future Army officers. MS classes are part of the University's course catalog and grades count as part of the Grade Point Average like any other class at the university.

Lab Overview

Leadership Labs are held every Wednesday from 3:00 - 6:00pm at various locations on campus. Lab brings together all Cadets in the Bulldog Battalion in order to apply the information learned in Military Science classes and provide an opportunity for Cadets to operate at the team, squad, and platoon level. The skills taught and evaluated in lab directly relate to skills and tasks that Cadets will be evaluated on at Advanced Camp. Seniors (MS IVs) typically plan the labs and serve as primary instructors and evaluators

Physical Fitness

Physical Training (PT) is conducted Tuesday thru Thursday for all Cadets in the Bulldog Battalion from 5:45 - 7:00am.. The PT program is designed to challenge participants of all abilities and is progressive in design to ensure Cadets regardless of starting fitness level improve their level of fitness throughout the semester. Cadets receive instruction on proper form and safe execution of each movement and all PT sessions are supervised by Cadre members. Cadets complete one diagnostic and one record ACFT per semester. Contracted Cadets are required to pass the ACFT in the months of October and April. Non-contracted Cadets must pass the ACFT before they are eligible to contract.

Extra Curricular

- Air Assault
- Airborne
- Cadet Troop Leader Training (CTLT)
- Internships
 1. PUBLIC AFFAIRS OFFICER INTERNSHIP PROGRAM (PAOIP)
 2. FORENSIC INTERNSHIP PROGRAM (FIP)

Scholarships

Scholarships are competitive based on merit in three areas: academics, athletics, and leadership. There are three types of scholarships:

High School Scholarships: Apply online after the completion of the junior year at <http://www.goarmy.com/rotc/scholarships>. Create an online account profile and fill out the application.

National Guard or Army Reserve Scholarships: Apply for these through the Recruiting Operations Officer. These require concurrent service in the National Guard/Reserves while in college and require service in the Guard/Reserves after college. Students who accept these scholarships may not compete for active-duty service after college.

Campus-based Scholarships: Apply for these through the Recruiting Operations Officer. These are for students already in college or past the deadline for the high school scholarships.

Scholarships are worth 100% Tuition and Fees OR \$12,000 Room and Board, not both. Students who earn a scholarship also receive \$600 per semester for books. All scholarship recipients are required to contract as an ROTC cadet and agree to Army service post-college prior to receiving any benefits. All contracted students receive a monthly stipend of \$420/month.

Scholarship Breakdown

4 Year National Scholarship

\$12,000 Room and Board

\$4,200 Stipend

\$1,200 Book Stipend

= **\$69,600**
